

MODULAR
SURE SITE

PREMIER SET & CRANE SERVICES

Modular Sure Site is the premier set and crane services in the United States.

VISION + EXPECTATIONS

Our first class service and process provides our client a transparent understanding of executing one of the most important roles in modular Off-Site construction projects; setting components and assembly. Our goal is a cohesive blend of services through safety, organization, communication, and professional execution on-site. Our specialized experience in modular construction and pre-planning collaboration provides high quality and value for our client.

STANDARDS + BEST PRACTICES

- OSHA Certifications
- State & Municipal review on code responsibilities
- Software to value manage the process and transparency with all partners
- Pre & Post meetings to review expectations

PLANNING + EXECUTION

- Identify all details from design and engineering extending to on-site deliverables
- Identify factory module details to work cohesively with crane operation.
- Engage regulatory agencies and municipality
- Evolve innovation with software platform for set execution
- Inspection reviews

THE TEAM

- Highly trained individuals on-site
- Licensed Crane Operator
- Detailed responsibility matrix with qualified licensed subcontractors

TAKEAWAYS

- Cost certainty & build schedule review
- Updates to software platform to increase performance
- Scheduling crew and crane setups to save time
- Regulatory standards reviews and integration updates
